-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 04 August 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-35 is/are pending in the application.
 4a) Of the above claim(s) 17-28 and 30-33 is/are withdrawn from consideration.
- 5) ☒ Claim(s) 1-16 and 29 is/are allowed.
- 6) ☒ Claim(s) 34 is/are rejected.
- 7) ☒ Claim(s) 35 is/are objected to.

DETAILED ACTION

Rejection Withdrawn

1. Claim 34 rejected under 35 USC 102(e) as being anticipated by Yang has been withdrawn in view of the amendment to claim 34 filed on August 4, 2005.

Response to Arguments

2. Applicant's arguments with respect to claim 34 has been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claim 34 is rejected under 35 U.S.C. 102(e) as being anticipated by Yang
(6838142)

The applied reference has a common assignee with the instant application.

Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in

Art Unit: 1772

the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Yang relates that the release liner has pyramidal depressions with first and second sidewalls having angles of 0-90 (col. 7, lines 38-47). The pitch P is between 5 and 2500 microns (col. 7, lines 22-24), this pitch is inclusive of the now claimed pitch of less than about 350 microns.

With regard to the phrase "capable of" performing a function, it has not been given patentable weight because said phrase is not a positive limitation but only requires the ability to so perform. *In re Hutchison*, 69 USPQ 138.

Allowable Subject Matter

5. Claims 1-16 and 29 are allowed.

The prior art uncovered so far fails to teach an adhesive article comprising a release liner having at least three sidewalls, wherein the first and second sidewalls make an angle of between 0 and 90 degrees with respect to the plane of the surface, and that the first sidewall angle differs from the second sidewall angle by more than 10 degrees.

The closest prior art of Fleming (6759110) relates to an adhesive article having a release liner with structures extending from its surface and as shown in figures 5B and 6, the structure is pyramid shaped with sidewalls forming an angle "alpha". However, Fleming fails to teach that the presence of sidewall angles of "beta" which is different from "alpha" by more than 10 degrees.

Art Unit: 1772

Similarly, Yang (6838142) reference also teaches an adhesive article with the release liner having pyramidal structure thereon and figures 5, 6 7B shows that the sidewalls form an angle "alpha" with the surface of the plane. There is no teaching that the angle of a second sidewall differs from that of the first sidewall by more than 10 degrees.

6. Claims 35 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art uncovered so far fails to teach, as discussed above, that the first sidewall angle differs from the second sidewall angle by more than 20 degrees.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1772

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Election/Restrictions

8. This application contains claims 17-28 and 30-33 drawn to an invention nonelected with traverse in response filed on January 7, 2005. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.
